

# AURELIA METALS

FEDERATION PROJECT, NEW SOUTH WALES

## QUICK FACTS

<b>Commodity</b>	Zn, Pb, Au, Ag
<b>Metres drilled</b>	105,000 per annum

## SCOPE SUMMARY

Aurelia Metals' Federation deposit is a high- grade Volcanogenic Massive Sulphide (VMS) system located near Aurelia's Hera Mine in Central West NSW.

Mitchell Services is conducting a resource drill out of the deposit, incorporating a series of drilling services including 'parent/daughter' directional drilling programs up to 1,000m.

## CLIENT OUTCOMES

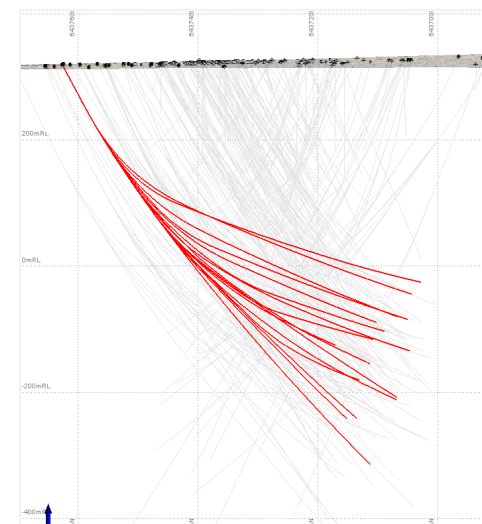

- Zero Lost Time Injuries (LTI's)
- 36m per shift diamond average
- Record 15 'daughters' completed off one collar
- Multiple drilling services conducted at one time

## SERVICES PERFORMED

- ✓ Diamond coring
- ✓ Reverse circulation
- ✓ Directional

## RIGS

- 3-4 X Sandvik DE880 High-Capacity drill rigs
- 1 X Sandvik DE840 Multipurpose drill rig
